SUPPLEMENT

TO

FRANKEN BROTHERS

AUTUMN CATALOGUE

1920

To enable our customers to secure the newer and rarer HOLLAND BULBS which we do not carry in stock, we issue this SUPPLEMENT containing a selection of the choicest varieties introduced in recent years.

Orders from the SUPPLEMENT must, however, be received before

JULY 1, 1920

and the bulbs to fill orders so received will be selected and separately packed in Holland.

After that date selections must be made from our GENERAL CATALOGUE sent herewith, which contains those standard varieties which we carry in stock during the planting season and which may be ordered at any time.

If bulbs are wanted from both supplement and catalogue, customers are advised to include the whole in one order before July 1st, and a discount of 2 per cent will be allowed on all such orders, amounting to \$5.00 or more, if accompanied by cash.

FRANKEN BROTHERS,
Deerfield, Illinois.

Narcissi

Narcissi are probably the favorite flowers of the garden in early spring, and by proper selection of varieties the blooming season will reach from March until early May. Of the easiest culture in both house and garden, the massive trumpets of the Ajax section or the dainty blooms of the smaller varieties are alike satisfactory. The varieties named below are a selection of the best to be had in all classes.

Tulips

Darwin Tulips

In modern times no tulips have aroused the admiration that has been accorded to the Darwins. Vigorous in growth, with larger flowers and longer stems than any others, and at the same time exhibiting the most clear, delicate and beautiful colors of the family. In the garden they show best planted in groups or clumps of ten or more of one variety and they need not be disturbed for several years. They bloom in May, long after most other Holland bulbs have passed. For house decoration where soft colors and long stems are required, they are simply unrivaled.

Breeder Tulips

The Breeders are tulips which equal in size and height the Darwins, and flower at about the same time. They have, perhaps, the most unique coloration of all tulips. Soft self-colors in buffs, browns, bronzes, etc., abound and they are also agreeably fragrant. We heartily recommend them to all lovers of artistic colors.
